

**North Carolina Association of
County Agricultural Agents**
Hosts to the
**2008 NACAA Annual Meeting and
Professional Improvement Conference**
Greensboro, North Carolina ~July 13 – 18, 2008

TO: Potential Partners of the 2008 NACAA AMPIC

The North Carolina Association of County Agricultural Agents has been selected to host the National Association of County Agricultural Agents Annual Meeting and Professional Improvement Conference (NACAA AMPIC), July 13 - 18, 2008 in Greensboro, North Carolina.

It is a great honor, privilege and opportunity to be the host to over 1500 of our nation's Agricultural Extension Agents who work with our nation's farmers, agribusinesses, communities, families and youth.

Agricultural agents are already hard at work planning for an outstanding educational conference. Hosting the national meeting will require partnerships and funding assistance. We will have the opportunity to showcase North Carolina's agricultural production, agribusiness industry, natural resource management, communities and youth development to Extension Agents from all across our nation. We hope that you will consider becoming an important partner and sponsor of this event. We set a goal to raise \$500,000 for a successful event. Our members are currently giving through payroll deduction, but to reach our goal we need help from those who value the work of Agricultural Extension Agents and support North Carolina agricultural industries.

In the enclosed information, you will find more detailed information about the conference plan, the State and National Associations, and donation specifics. Please take a few moments to learn about this professional improvement opportunity and how you can support it.

Thank you for supporting North Carolina Agricultural Extension Agents. We value our relationship and hope that we can discuss a partnership for this conference.

Sincerely,

Mark Tucker
